General specifications and options:

- Frame Clamp -
The standard configuration includes the Frame Clamp Inner Piece 1" standard (UFC1000IP) for attachment to a wheelchair main-frame with round tube. Alternate clamps are available, see page 5.
The M-Series frame clamp uses the standard DAESSY inner pieces and the RFCR receiver which allows the addition of optional parts such as Offset Links and Spacers as required.
- Quick Release Base -
The standard configuration of a M-series mount includes the MQR-75 M-Series Quick Release Base. Optional Articulating Quick Release bases available as listed above. All DAESSY device adapters, holders & mounting plates fit M-Series Quick Release Bases, see page 8.
- M-Series materials -
Components: Anodized Aluminum
Tubes: 3/4" OD Stainless Steel
- The M-Series by DAESSY is a smaller, lightweight mount solution which may not be suitable for larger devices exceeding 10lbs or eye tracking camera systems that require special tall positioning.

⁷ M-Series Quick Release Bases will only fit M-Series mount tubes. The MQR-75 is included with the M-Series Assemblies by default; the AQR-75 may be substituted, add \$110.00 to mount assembly price.
