

## Desk Mount (DM)

The Desk Mount allows for a device to be positioned at a precise angle while seated on a desk surface. Often used in conjunction with a DAESSY wheelchair mount, it allows the device to be transferred between locations easily and still oriented on the same angle for access.

### KEY FEATURES:

- Ideal companion for a DAESSY wheelchair mount
- Usable on most desk surfaces
- Supports devices up to 15lbs/6.8Kg
- Height adjustable up to 7 inches\*

### DEFAULT CONFIGURATION:

- Standard U-shape desk mount base with rubber feet
- Quick Release Base – TUSB

### CAUTION:

- With large devices it is important to ensure the device is within the base area of the Desk Mount to reduce any tendency to tip.
- It must be recognized that the Desk Mount may slide about some surfaces when the device or touch screen is directly accessed.

\* Maximum height measured from table surface to middle of quick release base.
