

X-Base Folding Desk Stand (XDS)

The DAESSY X-Base Folding Desk Stand is a versatile table/desk mounting solution that can fold for storage and transport. The Articulating Quick Release Base* (included) provides extensive height, angle and rotational adjustment. The XDS can be used in conjunction with a DAESSY wheelchair mount.

KEY FEATURES:

- Adjustable quick release for extensive device positioning.
- Height Adjustable (up to 17" above surface).
- Folds for easy transport and storage.
- Usable on most desk surfaces.

CAUTION:

It must be recognized the X-Base Folding Desk Stand may slide on some surfaces when the device or touch screen is directly accessed.

* The vertical tube used with the XDS is $\frac{3}{4}$ " OD requiring the AQRL75-2H.
